

# Lancia Delta HF integrale Martini 5

1992

**The Lancia Delta HF integrale Martini 5 was created to celebrate the fifth world constructors' title won by the Turin-based manufacturer in the World Rally Championship.**

**Based on the EVO 1 version, the car had a specific exterior and interior design:**

**The car was painted a white 210 on which were applied martini-coloured stripes running along the sides and on the rear bonnet horizontally.**

**The whole was embellished with a rear spoiler and front bonnet vents in matt black.**

**The wheels were stunning 15-inch Speedline Monte Carlo wheels painted white, on which Michelin MXX tyres were mounted.**

**Inside were tall Recaro seats upholstered in black alcantara with red contrast stitching.**

**The stitching echoed the colour of the Sabelt seat belts, which were also red.**

**Like all limited edition Deltas, there is an identification plate in the console between the two seats indicating the specific car number.**

**A Clarion CRX 111 CD player car radio, Gemini alarm system and air conditioning complete the interior equipment.**

**Opening the bonnet the final surprise: ABS system and engine cover painted red.**

**The example I proposed left the production line on 24 February 1992, number 150 of 400.**

**It was bought by the artistic director of La Scala as a gift for his son, so the car has a very special number plate.**

**After years of little use, it was passed on to the current owner who has used it regularly, maintaining it scrupulously and never making any modifications.**

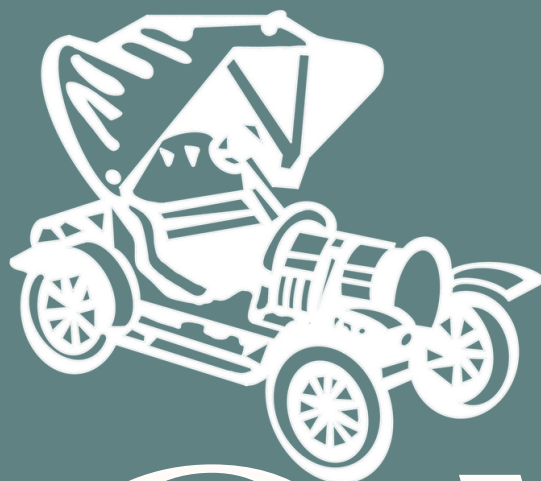

**Reaching the mileage of 84,000 km it is now one of the most beautiful examples on the market and with a clear history.**

**These cars have had a long period of oblivion, many examples have passed through many owners who did not maintain them scrupulously and often replaced the original engine with that of other fiat group models.**

**With the revaluation of recent years, many examples have been reconditioned, but they will never be like a car that has lived through a garage queen past.**

**The example I am proposing is a matching number and is only waiting for one thing: a passionate new owner.**
